Searching Algorithms Continued Exercises

mismatch()

- Describe the mismatch function
- Write a simple program which demonstrates the use of mismatch()

"Some of" algorithms

- Describe the all_of, any_of and none_of functions
- Write a simple program which demonstrates the use of each function

binary_search()

- Describe the binary_search function
- Write a simple program which demonstrates the use of binary_search()

includes()

- Describe the includes function

- Write a simple program which demonstrates the use of includes()
